

PROJECT OF DISTINCTION™

SUNSET SHELTERS - GOLETA, CA

SIGNATURE SERIES TRANSIT SHELTERS - Your community. Your style. Your signature.

THE PERFECT FIT TO REFLECT THE CHARACTER OF YOUR COMMUNITY

Tolar Manufacturing fabricated this beautiful Signature Sunset shelter to support Goleta's progressive, entrepreneurial business community.

LOCATION

The City of Goleta is located in southern California on the south coast of Santa Barbara County, approximately 100 miles northwest of Los Angeles and ten miles west of the City of Santa Barbara. Goleta resides within a narrow coastal plain of exceptional natural beauty between the Santa Ynez Mountains and the Pacific Ocean.

Incorporated in 2002, the City of Goleta has a population of approximately 30,000 people and is home to a progressive, entrepreneurial business community. Among organic farms and high technology manufacturing you'll find a busy Old Town commercial district, shopping centers, and lively local farmers' markets in which Tolar Manufacturing Company has seamlessly blended a modern transit shelter.

PROJECT

Tolar Manufacturing Company fabricated this Signature Sunset shelter beautifully surrounded by lush growth in Goleta, California.

This 10-ft bus shelter provides shade and comfort for commuters who work in and around this growing commercial park. Supporting three Santa Barbara Metropolitan Transit District routes, passengers can rest their feet at the Mesa-style bench that includes seat delineators, while taking comfort in the shade provided by 3/8" heat-formed bronze and polycarbonate curved roof panels held by multi-channel horizontal and vertical aluminum posts. Decorative spun escutcheons round out the modern aesthetic.

Other amenities include a matching trash receptacle, branded route flag, and easy-to-read, pole-mounted schedule display.

A WORD FROM OUR FOUNDER

"The Santa Barbara area is so picturesque. Being selected to build custom bus shelters for this beach community that is known for its commitment to providing public transit for all, is a real privilege."

- Gary Tolar

MORE PROJECTS FROM TOLAR MANUFACTURING

Creating bus shelters and other outdoor structures of durability and distinction that reflect the character of your community ... *that's the Tolar Difference.*

DOWNTOWN TRANSIT MALL

22-ft x 10-ft transit shelters located at Courthouse Park in Fresno, California, also known as the Downtown Transit Mall. Eleven bus shelters in all are dramatically lit with energy-efficient blue LED lights designed by Teter Architects and Engineers. The Tolar team fabricated the shelters, roof glazing system and all stainless steel accents including the unique lean rails around the dual post columns.

LOS ANGELES SOUTHWEST COLLEGE TRANSIT STATION

Tolar Manufacturing adapted 16-foot shelters from its Signature Custom line to form a transit station for Los Angeles Southwest College. Working closely with the school's project architect the Tolar team created a solution that serves the transportation needs of the school's growing enrollment, while meeting site restrictions and reflecting the school's powerfully branded identity. Illuminating the bus stops with environmentally-responsible solar powered lighting was another critical element of the project.

Other environmentally-friendly features include a custom powder coat finish that emits minimal VOC's into the local environment, seating that features HDPE slats around an architectural aluminum frame.

PAPEL PICADO THEMED SHELTERS - SANTA ANA

Tolar Manufacturing brought to life the City's vision of embracing the popular Mexican "papel picado" folk art – the elaborate designs created from cutting colorful sheets of tissue paper – to the design and fabrication of 41 custom-built transit shelters.

The shelters are now installed throughout the city, fabricated in four sizes from 14-ft to 27-ft long. Each includes distinct branding elements highlighted by colorfully tinted polycarbonate roof panels to create a Sense of Place™ that ties into the heritage and culture of the unique neighborhoods in which each shelter resides.
