EURO SERIES TRANSIT SHELTERS

American Quality. Classic Substance. Euro Flair.

THE PERFECT FIT FOR MODERN COSMOPOLITAN COMMUNITIES AND BUS RAPID TRANSIT PROJECTS

Our Euro Transit Series is sleek and stylish yet strong and sturdy. This combination of design and durability results in a highly functional transit shelter with eye-catching designs that your community will warmly welcome to its public streetscape. And, you can trust that our experienced engineers will ensure all of your bus shelter design specifications are incorporated into the finished product, whether that's a need for solar-power illumination, digital or static information/advertising displays, custom color matching or special weather resistant materials.

Cutting-edge looks combined with unsurpassed craftsmanship, that's what you can expect from our innovative Euro Transit Series shelters.

Key Features:

- Sleek modern, fully customizable transit shelter
- Distinctive profile with bronze, Lexan and color-match roof options
- Bus stop roof design allows for rain gutter and optional housing for security lighting
- Solar lighting and low draw LED illumination options
- Available with or without an advertising media display kiosk. Illuminated kiosks can be powered with traditional 110V illumination or green solar technology. Digital options are also available.
- Standard rear wall or cold-weather protective design
- Custom herringbone or standard perforated metal walls
- Unique custom glass treatments, perfect for public art or city branding
- Transit shelters available in lengths from 8 to 24 feet and widths from 4 to 6 feet
- Made in the USA and Buy America compliant

Modern Euro dome with advertising display
