

## Creating a Sense of Place

COMFORTABLE YET DURABLE. STYLE FOR TODAY. **VALUE FOR THE FUTURE.**

The perfect way to create a Sense of Place™ in public spaces.

Our line of Street Furniture is unsurpassed in the industry. Tolar Manufacturing offers the perfect combination of style and sturdiness sure to please your toughest critics. Whether you are looking for real-time information signs to complement your Signature series transit shelter, secure bicycle racks to add value to your BRT/Rail series project or you simply seek trash receptacles and benches for your newest public venue, Tolar's line of outdoor furniture will exceed your expectations.

We offer a variety of designs, a range of standard and custom-branded colors, and the assurance that our product materials are sourced to result in the most well designed, purpose-built street furniture on the market today.

We collaborate with architects, designers, and communities to create spaces that reflect local character and invite comfort and connection. Our shelters provide seating, lighting, shade, and other amenities for transit stops, pedestrian walkways, campuses, and anywhere the public gathers for comfort and protection from the elements.
